

Grupo de Ingeniería de Microondas, Radiocomunicaciones y Electromagnetismo (GIMRE)

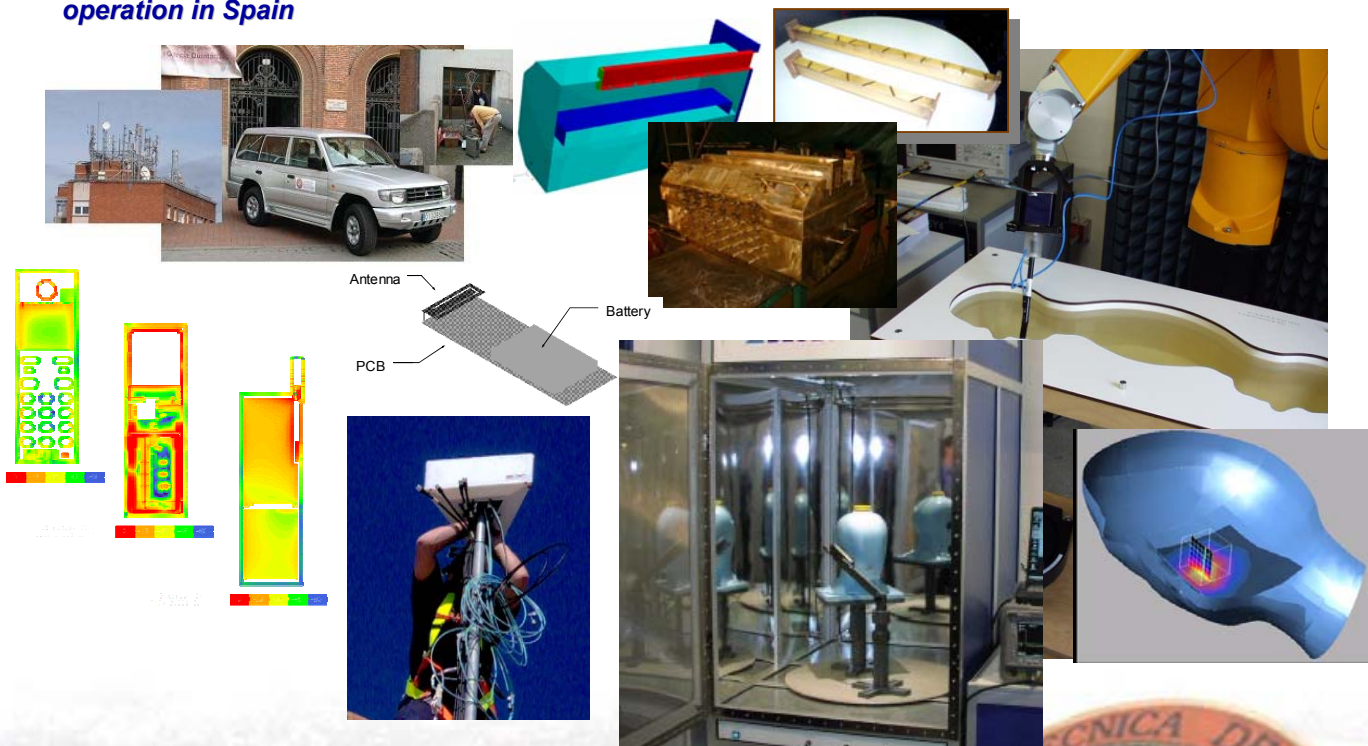

Universidad Politécnica de Cartagena

High scientific R&D level Group in the Region of Murcia

1 **Radioelectric emissions and dosimetry.**
State-of-the-art evaluating procedures for both indoor and outdoor scenarios. Only DASY4 system in operation in Spain

2 **Advance antenna design and development.**
Patented multiband planar antennas successfully applied to diverse wireless systems.

3 **Microwave heating.**
The latest advances and applications in this technology, hybridized with other energy sources
